

WHY We are Doing This

Key Findings

- Load time ~ **4.7s** → borderline acceptable, but not competitive ([SEO Site Checkup](#))
- Page weight ~ **5MB+ (heavy images)** ([SEO Site Checkup](#))
- No proper **H1 structure** → SEO + clarity issue ([SEO Site Checkup](#))
- Multiple HTTP requests → slows rendering

CRO Impact

- Every extra second = **~10–20% drop in conversions**
- Heavy visuals → slow mobile UX → high bounce

Priority Fixes (HIGH IMPACT)

- Convert images → WebP
- Reduce JS payload
- Add proper H1 + semantic structure
- Lazy-load sections below fold

Current Positioning (Observed)

- “Complete digital agency services...” (generic)
- Services listed early without clear differentiation ([Matrix Media](#))

Problems (Heatmap Simulation)

- **Attention drop above fold**
- Users don’t immediately understand:
 - Who it’s for
 - Why you’re different
- CTA is weak (“Get Started”, “Learn More” type)

Simulated Flow:

Homepage → Services → Contact

Friction Points

1. **Too Many Service Options Early**

- Web, Mobile, AI, IoT, Marketing all shown at once
👉 Causes **decision paralysis**

2. Weak Mid-Funnel Conversion

- No:
 - Case study CTA
 - ROI proof
 - Testimonials above fold

3. Contact Intent Drop

- “Let’s get started” is vague
👉 High friction before form fill

Heatmap & Session Recording Insights (Simulated)

Likely Behavior

- Users scroll 40–60% then drop
- Clicks concentrated on:
 - Services grid
 - Menu

Drop-Off Zones

- Mid-page content blocks
- Generic text sections

Brutal Truth (What’s Holding Back Conversions)

Website feels like a services catalogue, not a sales funnel

Messaging is generic → not differentiated

No strong conversion hooks or urgency

Weak proof + storytelling

CRO Strategy Blueprint

The site currently feels like:

“We offer many digital services.”

It should feel like:

“We help businesses build smarter, faster, AI-powered digital products that scale.”

Matrix Media is no longer just a development company.

It is:

- an AI-powered application transformation partner
- a product engineering + growth company
- a modern digital acceleration agency

Current Funnel

Homepage → Services → Contact

Too weak.

Recommended Funnel

Homepage → Segment selection → Outcome-focused service page → Case study proof
→ Audit CTA / Discovery call

Design & UX Recommendations

Move from:

- dense agency layout

To:

- modern SaaS-style structure
- cleaner whitespace
- stronger typography
- conversion-led hierarchy

Note: We will go for a minimalist look. Hard colors will be used only as highlighters.

There will be enough blank real estate in the pages.

Ex:

The hero section features a dark blue background. At the top, the headline "Your Business, Reimagined with AI." is written in large, bold, white sans-serif font. Below the headline is a thin white horizontal line. Underneath the line, on the left, is the text "Top Rated Development Company" in bold white font, followed by "300+ Glowing 5-Star Reviews Across Top B2B Review Platforms" in a smaller green font. To the right of this text is a grid of four review platform logos and ratings: Clutch (4.8), G2 (4.8), Google (4.6), and Goodfirms (4.8). Each logo is accompanied by a yellow star icon.

Platform	Rating
Clutch	4.8
G2	4.8
Google	4.6
Goodfirms	4.8

Footer

1. **Prominent Trust Signals:** Place verified badges (like "Google Trusted Store," "SSL Secured," or 5-star ratings). This directly addresses last-minute objections.
2. **High-Value Lead Magnet:** Instead of a generic "Subscribe" button, offer immediate value. Visualized here as "Unlock Growth Insights" and "Get Free Tips,".
3. **Action-Oriented Navigation:** Prioritize links that lead directly to conversions. Notice the emphasis on "Schedule a Demo," and "Pricing Plans," guiding users to high-intent pages.
4. **Embedded Social Proof:** Including a snippet of a strong customer testimonial (ideally with a photo) reinforces positive sentiment right as the user reaches the bottom of your page.
5. **Other Page Links:** See matrixnmedia.com for missing pages.
6. **Privacy Policy, T&C, and Copyright** at the bottom most.
